If you are looking for a dentist who wants to develop a long-term relationship with his patients look no further than Dr. Buscemi. He was our dentist at another practice in Rochester Hills and when our son was having issues with his teeth and needed immediate care (that our current practice couldn't provide) we sought out Dr. Buscemi. Dr. Buscemi was able to see our son quickly, take care of the issue, and follow-up to ensure there were no issues post-treatment.

When the time came for my routine cleaning I also switched to Dr. Buscemi's new office. His hygienist was thorough and easily made me feel comfortable. I unfortunately had a cavity that needed filling and another tooth that had a suspicious looking crown but was advised to watch it and follow-up at my next cleaning in six months. When I went back for the filling and, after further inspection, Dr. Buscemi advised not waiting to fix the crown. He originally put the crown in years ago and I'm glad I agreed to get it replaced because after removal there was decay. With Dr. Buscemi's continual professional training on new techniques and processes, I was able to get a new porcelain crown made while I waited not making it necessary to have a temporary crown and come back two weeks later. It was a longer appointment but I was glad to get it all done in one office visit.

Dr. Buscemi's treatment philosophy is all about quality patient care and fostering a level of trust with patients for their long-term health and wellness. We highly recommend his practice!

Dr. Buscemi and his staff are exactly the dental group you want to handle all your dental needs. Dr. Buscemi is so personable, a great listener, and has a gentle touch. As someone that has severe dental anxiety I can go to this practice knowing I have a dentist and staff that helps me feel calm and comfortable during my whole appointment. Even though he's out of network with my insurance, I cannot imagine going anywhere else to have my dental work done. This place is amazing. They are my dental family. I highly recommend this practice and this dentist for all your dental needs.

Dr. Buscemi and his staff are not only knowledgeable with difficult cases like my own, but are also so professional, caring and down to earth!

When Dr. Buscemi left his other practice, I was more than happy to follow him even though the drive was longer. Dr. Buscemi and his staff do amazing quality work and treat you like family in the process! Best dentist I have found in 25 years!

First off: I'd trust Dr. Buscemi with my life.. Immediately from first handshake I knew I was in good care I was rather scared and traumatized from sub-far former dental work in the past, thinking I was doomed to lose my smile before i even got to turn 30, so i was quite sensitive during our first visit.

By the end of it, I was laughing and smiling as we figured out a plan During the exam, he laid out the facts straight, showing me on my x-rays what was wrong and explained why, but did so in such a charming way even some of the worst-case-scenarios didn't make me sweat.

I had no insurance, and little savings, but we worked together to prioritize "projects" so I could begin to feel relief ASAP, and top off the fine details as I could afford to do so, easing my worries along the way.

it's apparent that Dr. Buscemi has a true passion for his craft --and being a craftsman myself, I know the kind of dedication and care that brand of passion creates-- and beyond that, his desire to truly see his clients smile from the inside out has built a trust as strong as family.

For Frame of Reference

I got a new job recently and had to relocate to Nashville TN before we could finish the last few phases in my treatment plan-- and once my paid sick/vacation time becomes accessible next month I plan to use some of that time to travel back to Michigan so I can have my smile finished by the doctor that made me show it even at its most broken condition<3

12+/10 EZ. Hard recommend

I have been a patient of Dr. Buscemi's for 7 years. Dr. Buscemi is professional, thorough and informative, and lets you know every step of the way what's going on so there are no surprises. Everyone at Buscemi Family Dental is very friendly and efficient. Dr. Buscemi and his staff have a special way of making your visit personalized, comfortable and stress-free.

Vince and team, from receptionist to hygienist, are friendly and professional. They make use of the latest technology in their treatment plans, and take the time to explain recommended courses of action in layman's terms. No lecturing here; I felt very comfortable, despite not having visited a dentist in some time and requiring follow-up work. Great experience, recommend!

I am so happy I found Dr. Buscemi! He goes above and beyond for his patients and is meticulous to ensure perfection. Him and his staff were so kind to cater to my schedule when I had a dental emergency and walked me through every step of the process by taking the time to review my photos and medical history. I am thrilled that my entire family and I have found an honest, caring and gentle dentist with Dr. Buscemi.

I have been a patient in Dr. Spencer's practice for 40 years. I was glad to meet Dr. Buscemi, Dr. Spencer's replacement, who made me feel welcome and gave me a positive report. I am always impressed by the expertise of my hygienist Jennifer. Thanks to them both and good luck in forging a successful path ahead.

BEST of the BEST! It is very reassuring to find a dentist that puts the patients care and prime interest in mind. Dr. Buscemi takes his time to make sure you get his finest work. The personal attention he has given myself and my family is above and beyond anything we could hope for in finding a dentist. Dr. Buscemi is a rare find!

I have been going to Dr. Spencer since I was around 9 years old, I am now 43. He has by far been the best dentist ever. Yesterday I had the scary experience of being seen by his new partner Dr. Buscemi. My fear was quickly set aside as he is amazing as well. If you are looking for a pain free, experienced, well educated, and compassionate experience, go here. If pain and condensation are your thing, this is not the place for you. You really can't find a better dentist in SE Michigan, the lower peninsula of Michigan, the Midwest, the US, North America, or really anywhere else, so just go here and be happy with the best dentistry ever.
